あとがき

Dear Readers,

As of this chapter of Puppy Lovers, we are caught up with all Tankoubon releases in Japan. As far as any of us are aware, there will be more coming in the future. But when it will be coming is not something that we know. I have been searching Amazon.co.jp for any signs of a volume 2, but have seen nothing. Usually Amazon has a listing for manga at least 1 month in advance of its release.

We hope you enjoyed this release of Puppy Lovers and apologize for the long wait in getting these last three chapters out.

If you truly wish to support us, buy the Japanese raws and support the mangaka and publishers. As such, we ask that you please refrain from reading on Manga-fox, Manga-here and other Dioz affiliated sites to help send a message that actively profiting off of scanlations should not be tolerated.
